

C-CPP Commercial Chlorinator Range

Key Features

- Required operating 3000 PPM salt up to salt water
- LCD digital display with diagnostic maintenance menu
- Can be operated through an external computer, so monitoring for problems is quick and easy - you don't even need to go to site!
- Option to select from 5 languages; English, French, Spanish, Italian & German
- New revolutionary design to ensure minimal calcium build up on the cell
- Salinity readout on LCD display presented in PPM
- Water temperature readout on LCD display
- LED lights to indicate problems such as low salt, high salt & no flow
- Self regulating function if salt content is too high
- Fully weather protected
- Semi automatic acid wash for minimum maintenance. So the only time you need to remove the cells is when they get replaced
- Winter mode for cold water operation
- Advanced electrical design ensure phosphates do not build up around the cell and reduce output
- Touch pad controls that provide easy setting
- Easy installation to new and existing pools
- Reliable and durable for long lasting performance
- Digital time clock with battery back up as standard
- 3 full year warranty on the cell
- 2 full year warranty on the power unit
- The cell is removable for easy exchange
- Advanced rust proof metal enclosure
- The unit can be run on single or three phase power supply

***The most advanced commercial salt system in the market.
