

BF SERIES SAND FILTER

**SUPERIOR PERFORMANCE
SAND FILTERS**

By Compu Pool Products

**The natural solution
to crystal clear,
perfectly filtered
pool water**

**ADVANCED BOBBIN
WOUND SPUN
FIBREGLASS**

**10
YEAR
WARRANTY
ON TANK**

'Technology in Harmony with Nature'

With the vast improvements in pool and spa pumps, the demand for more sophisticated and better engineered sand filters has become essential.

This is why Compu Pool Product's research and development team has put so much effort into ensuring the BF Series Sand Filters surpass previous high standards of quality, performance, reliability and convenience - ensuring it is one of the most superior sand filters on the market today!

BF SERIES

HIGH PERFORMANCE COMMERCIAL & DOMESTIC SAND FILTER

Each filter is covered by a full 10 year warranty on the tank and 12 month warranty on the valve and internals.

How BF Series Works

BF Series sand filters feature an advanced water circulation system through a balanced layout of laterals strategically located throughout the base of the tank. This allows the water to be perfectly distributed throughout the entire filter bed trapping debris and other impurities before pure, crystal clear water returns into the pool via the multi port valve.

Technologically Advanced

The BF Series design comprises of the latest technologically advanced bobbin wound fiberglass. The use of corrosion-resistant reinforced abrasion proof and state of the art fabrication techniques ensures the filter will be able to handle the harsh extremes of the local climate – season after season!

Efficiency

Large capacity and higher flow rates enable the pool water to be filtered more effectively in a shorter period of time and to help reduce operating costs.

Reliability & Durability

The advanced design of the BF Series allows it to comfortably handle the constant increases and decreases in pressure that sand filters experience. Compu Pool Products is a proven name you can rely on and this is backed by over 25 years of manufacturing and distributing pool and spa equipment.

Features :

- Corrosion-resistant
- Deforming-proof design
- Easy to install and virtually maintenance free
- Heavy duty UV protected fiberglass tank
- High performance filtering
- Suitable for all types of pools including freshwater and saltwater
- Sight glass
- Easy to read, centrally located pressure gauge
- Advanced six position multi port valve
- Suitable for both commercial and domestic applications

TECHNICAL SPECIFICATIONS - BF SERIES

Model	Tank Diameter (mm)	Height (mm)	Inlet & Outlet Diameter (mm)	Working Pressure (Kgf/cm ²)	Flow (l/m)	Filtrate Area (m ²)	Weight of Sand (kg)	Recommended CPP & Powerstorm Pump Sizes
BF450-18"	450	800	40 x 40	2.5	178	0.161	75	Powerstorm 750 CPP 75
BF500-21"	500	840	40 x 40	2.5	190	0.196	80	Powerstorm 750 or 1000 CPP 75
